EDUCATION

Mathematics

University Of Ibadan

2017- Present

- Received Total Scholarship

PROFESSIONAL SUMMARY

I am a passionate data scientist skilled in machine learning, problem-solving, business intelligence analysis and programming with 2+ years of experience. I have also developed high-end machine learning applications as well as analysis and visualizations to help proffer solutions to social and business problems.

WORK EXPERIENCE

Remote

July 2022 -
October - 2022

- Performed Exploratory Data Analysis and data preprocessing on messy datasets.
- Built Linear and Non-linear Regression and Classification models with more than 90 percent accuracy.
- Carried out Data Visualization using seaborn and matplotlib.
- Model Deployment.

SKILLS

- Programming and Scripting: Python, SQL
- Data Visualization: Tableau, MS Excel, Python(Seaborn, Matplotlib)
- Data Wrangling: Power Query, Power Pivot, Pandas, NumPy, DAX, MS Excel (Pivot Tables), SQL.
- Presentation & Data Story Telling: Microsoft Power Point
- Machine Learning: Python(XGBoost, Keras, Decision trees e.t.c)
